---

## PROFESSIONAL SUMMARY

Results-driven Software Engineer with 4 years of professional experience architecting scalable multi-tenant SaaS platforms, enterprise web portals, and AI/MCP-driven applications. Proficient in Next.js, React, Node.js, NestJS, Storyblok Headless CMS, and cloud-native infrastructure (GCP, AWS, Docker). Proven track record delivering enterprise-grade platform revamps for premier institutions (Aga Khan University & Hospital), engineering AI-integrated visual platforms with Model Context Protocol (MCP) and drag-and-drop systems (Transcend), and leading distributed teams to cut infrastructure costs by 35% and boost deployment velocity by 5x.

---

## TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), Python, SQL, HTML5, CSS3, C++, Java
- **Frontend:** Next.js (App Router, SSR/SSG/ISR), React.js, SvelteKit, Vue.js, Storyblok (Headless CMS), Drag-and-Drop (DnD / dnd-kit), Redux Toolkit, Tailwind CSS, Shadcn UI, Material UI, Framer Motion
- **Backend & APIs:** Node.js, NestJS, Express.js, Fastify, RESTful APIs, GraphQL, Model Context Protocol (MCP), Microservices Architecture
- **Databases & BaaS:** PostgreSQL, Supabase, MongoDB, Firebase, Redis, MySQL, Appwrite, Strapi
- **Cloud & DevOps:** Google Cloud Platform (GCP Cloud Run, Compute Engine), AWS (EC2, S3, Lambda, API Gateway), Docker, GitHub Actions (CI/CD), Vercel, Netlify, Cloudflare Workers, NGINX, Linux

- **AI & Machine Learning:** Model Context Protocol (MCP), OpenAI API, Hugging Face Hub/Spaces, Gemma LLM, Scikit-learn, Real-time Voice Pipelines (Pipecat, Groq, Whisper, ElevenLabs, Cartesia), OpenCV, Fast TFLite
  - **Payments & Integrations:** Stripe (Subscriptions & Split Payments), PayU, Imoje, Twilio, WhatsApp Business API, Google Ads API, Notion API, Shopify
  - **Testing & Tools:** Playwright (E2E Testing), Jest, Postman, Git, GitHub, Linux CLI, Ahrefs SEO Audit
- 

## PROFESSIONAL EXPERIENCE

### Cloud Primero | Karachi, Pakistan

**Software Engineer** | *Dec 2025 – Present*

- **Enterprise Web Modernization:** Spearhead frontend architecture for the comprehensive digital platform revamp of **Aga Khan University (AKU)**, **Aga Khan University Hospital (AKUH)**, and **Aga Khan University Examination Board (AKU-EB)**.
- **Headless CMS & Component Systems:** Engineer scalable, SEO-optimized, and accessible frontend interfaces using Next.js (App Router) integrated with Storyblok Headless CMS, enabling visual editing and dynamic multi-site content delivery.
- **Enterprise Integration:** Collaborate with senior backend specialists to integrate mission-critical microservices, secure healthcare and academic data APIs, and server-side rendering (SSR/ISR) workflows.
- **AI & MCP Visual Platform (Transcend):** Independently architected and engineered **Transcend**, an AI-powered visual builder application integrating **Model Context Protocol (MCP)** tool execution workflows with advanced **Drag-and-Drop (DnD)** canvas interactions, dynamic state orchestration, and modular component systems.

### Fair Trade Sp. z o.o. | Remote (Poland-based)

**Lead Software Engineer / Platform Architect** | *Feb 2025 – Dec 2025*

- **Distributed Team Leadership:** Led an engineering team of 4 developers in architecting, building, and deploying **BoxBuy** (boxbuy.pl, partner.boxbuy.pl), a multi-panel hospitality and catering SaaS platform.
- **Multi-Panel Architecture:** Engineered the Catering Panel (menu and meal logistics), Admin Panel (system oversight and analytics), Partner Panel (property onboarding, room management, and guest meal ordering), and StayPortal (stayportal.pl/lions).
- **Product Innovation:** Designed and launched CaterBox, an enterprise corporate catering platform inspired by ezCater with multi-party group ordering and automated referral mechanisms.
- **Cloud Optimization:** Hosted and maintained 10+ staging and production applications on Google Cloud Platform (GCP) using Docker container optimization, maintaining 99%+ uptime and reducing infrastructure costs by 35%.
- **CI/CD Automation:** Automated CI/CD deployment pipelines via GitHub Actions, reducing deployment errors by 90% and accelerating release cycles by 5x while improving customer satisfaction scores from 7.2 to 8.9/10.

## Teksyo | Karachi, Pakistan

**Full-Stack Developer** | Apr 2024 – Apr 2025

- **Microservices Architecture:** Architected modular microservices for Fexlife (AI CRM for insurance sales) and Elefant (Hospitality SaaS), cutting API latency by 45% and reducing page load times from 3.2s to 1.8s (increasing user engagement by 25%).
- **Automation & AI Workflows:** Built automated Python data pipelines with AI integrations for bulk document ingestion, structured text extraction, and spreadsheet processing.
- **Frontend Engineering:** Developed responsive custom themes and AJAX-driven UI components with Next.js, React, and WordPress, improving user retention by 15%.
- **Developer Mentorship:** Mentored 2 junior engineers, standardizing PR code reviews and reducing onboarding duration by 50%.

## Tajir Express / TajirXpress | Karachi, Pakistan

Contract Full-Stack Engineer | Jul 2023 – Apr 2024

- **E-Commerce Engineering:** Built and deployed a Next.js + Supabase e-commerce application processing 1,000+ monthly transactions.
- **SEO & Performance:** Optimized Server-Side Rendering (SSR) and core web vitals to achieve 90+ Lighthouse SEO scores, increasing organic search traffic by 30%.
- **Schema & Payment Design:** Designed relational database schemas in PostgreSQL/Supabase and integrated local payment gateways with automated transaction verification.

## Noonari Brothers | Karachi, Pakistan

Full-Stack Mobile Developer | May 2023 – Jul 2023

- **Cross-Platform Mobile:** Engineered a cross-platform mobile application using Ionic + React, compiled to Android APK via Capacitor.
- **Real-Time Cloud Backend:** Configured Firebase Authentication, Firestore real-time state synchronization, and role-based client servicing features.

## Al Quddus | Karachi, Pakistan

Next.js Developer | Nov 2022 – Apr 2023

- **Storefront Architecture:** Built an e-commerce platform using Next.js, Supabase, Tailwind CSS, and Material UI.
- **Legacy Data Migration:** Executed complete migration of 5,000+ legacy product records into normalized database schemas, reducing query latency by 40%.

---

## KEY PROJECTS:

- **Transcend:** AI-powered visual builder platform integrating Model Context Protocol (MCP) workflows, complex drag-and-drop (DnD) canvas interactions, and dynamic state management.

- Aga Khan University / AKUH / AKU-EB Enterprise Revamp: Next.js + Storyblok headless architecture for premier healthcare and university institutions.
  - DineSync: Multi-tenant restaurant operations platform featuring digital QR menus, live order tracking, table reservation management, Supabase backend, and automated testing suites built with Playwright.
  - AdabGuard (Capstone NLP Project): Roman Urdu hate-speech and toxicity detection platform combining a custom Scikit-learn/NLP model with a Next.js/TypeScript web interface.
  - QRCartoon (qrcartoon.com): Dynamic QR code and social media carousel generation web application built with SvelteKit, Appwrite BaaS, and custom redirect engines.
  - Hugging Face AI Deployments: Deployed containerized open LLM applications (Gemma 3 1B) on Hugging Face Spaces using Docker, Gradio, and Python.
- 

## EDUCATION

### Virtual University of Pakistan

- **Bachelor of Science in Software Engineering**
  - **Final Year Project: AdabGuard (Roman Urdu Sentiment & Toxicity Analysis)**
- 

## CERTIFICATIONS

- Google Cybersecurity Professional Certificate — Google
- Back End Development and APIs — freeCodeCamp
- Cisco CyberOps Associate — Cisco Networking Academy
- Google IT Support Professional Certificate — Google
- Google Python & Google Flutter — Google
- Advanced Commands in Linux — Coursera
- ANZ Cyber Security Management Virtual Experience — ANZ / Forage
